

# Veränderung in der Kalorien-Produktion als Resultat des Einflusses des Klimawandels auf die Ernte-Erträge

## Change in calorie production as a result of climate change impacts on crop yields

The change in annual calorie production across the ten largest global crops as a result of climate change impacts on crop yields to date.

Source: Ray, West, Clark, Gerber, Prishchepov & Chatterjee (2019). Climate change has likely already affected global food production. PLOS One. OurWorldInData.org/crop-yields • CC BY
